1910 Fruit—18560 quarts; 27840 pounds; 13 9-10 tons; 580 bushels; \$1856 net F. O. B. Westfield.

August being a very dry month the yield was reduced 15 to 20 per cent on my berries while other suffered as high as 90 per cent reduction.

ROOT CUTTING PLANTS-\$25 per 1000; \$3 per 100; \$1.00 dozen.

More profit from Blowers Fruit than from producing the roots. Unlimited market for fruit. Pittsburg buys whole crop. Nearly \$2000 worth of fruit in 1910. We challenge any and all other varieties. No real competitor.

"Cultivating Blowers Cuttings"

The Year 1910 is the Greatest Year for BLOWERS BIG BLACKBERRIES

- The yield of wild and cultivated berries is very light. We have harvested Fourteen Tons of Lucious Berries. In 1909 all varieties produced a bountiful crop. We had twenty-five to thirty per cent more weight than others and received five to fifteen per cent more money for the same amount of fruit. 1910 is all Blowers.
- Last Crates of Berries picked September 25th. Will have fruit to pick until freezing weather.

WE HAVE FULL SWING OUR GREATEST TRIUMPH

We have not raised the price of roots. We might do so with propriety. We put up a nice grade of BLOWERS BLACKBERRY ROOTS and charge a reasonable price for the same. We may raise the price next Spring. Send your order now. We will store the roots till Spring if you desire.

These are Judges and Ministers and those who make our laws and execute the same, who educate our children, distribute our mail, do our banking, sell our fruit and protect us from fire. They know a well Ladden Table.

"A Festive Board."

We have a fine stock of Concord and other Variety of Grape Vines. We have been at it one-quarter of a Century.

We solicit your valued order.
